*E-Recycling for a Brighter Future*

## **E-waste problem: it's not going away**

Your pursuit to responsibly recycle electronics can actually cause them to end up in harmful places. If not properly recycled, these electronics – and the chemicals inside – will end up in our water and air. The penalties associated with improper electronics disposal are rising – corporate responsibility is no longer separate from personal. What's more, 80% of companies that claim to recycle are actually stockpiling without your knowledge.

Your brand, the security of your data, and your stature as a good corporate citizen are all threatened by recyclers who are not transparent in every stage of the life cycle.

## **We don't hand off your electronics, we are the processor**

Southeastern Data (SED) is a full service IT Asset Management and Electronics Recycling organization. We are your partner in solving e-waste issues. Every year, SED prevents electronics – and the toxins inside – from polluting our planet. The amount of global e-waste is expected to grow by hundreds of millions of pounds per year. We understand there must be a balance between environmental responsibility and cost effectiveness – if you have an e-waste problem, SED will find your solution.

- **We manage the handling of all logistics** - from picking up to palletizing/shrink-wrapping all your recycling equipment
- **Fully process all your materials** - nothing you recycle with SED ends up in landfills, it is reused, recovered or fully recycled
- **Data security and sanitization** - DoD standards on all hard drive sanitization and destruction
- **Complete Inventory** - Including total count and weight for tracking all material
- **Certificates of recycling and destruction** – for compliance and record-keeping purposes

## **Transparency and Integrity**

At every stage of the recycling life cycle, companies of all sizes – schools, municipalities, and military/government entities – trust SED to handle their e-waste problems because of our unwavering dedication and expertise. Since 1996, our sales and service teams have customized solutions to meet these needs.

## **Trust and Assurance**

SED is the end processor and can handle everything from logistics to chain-of-custody– **We are your trusted partner, not a broker.**

## **Along with Electronics Recycling and IT Asset Management SED offers:**

- Mobile Hard Drive Shredding Services
- Demanufacturing
- Revenue sharing opportunities
- Wholesale pricing on refurbished/pre-owned computers with Microsoft™ Operating Systems pre-loaded

## **Locations**

SED is in Florida, Georgia, Indiana and Ohio and can service the surrounding areas

## **Certifications**

SED holds ISO 14001, Industry Certifications, and registered with the Department of Environmental Protection

# ACCEPTABLE ITEMS

---

## Computers

- Laptops, netbooks, notebooks
- PC tower,
- Portable disk drives
- Hard disk drives
- Blade servers
- Small-scale servers
- Tablets

## Accessories

- Keyboards
- Mice
- Hard Drives
- Power and Network Cables
- Docking Stations
- Network Hubs
- Modems
- Switches

## Phones

- Cell Phones
- Smart phone
- Telephones
- Desk Phones
- PDAs

## Household Electronics and Appliances

- Gaming Consoles
- Gaming Controllers
- Small Household Appliances
- CD Players

## Office Equipment

- Small personal Copiers
- Label printers
- Fax machines
- Terminals
- Printers
- Toner/Ink Cartridges\* contained within equipment or unit (ink and laser)

## Audio/Visual Equipment

- Stereos
- Tape players
- VCRs
- Radios
- DVD players
- Blu-Ray players
- DVDs
- CD-ROMs
- Flash Drives

## Miscellaneous

- Electronic Circuit Boards and Components
- Switching Boxes
- Lasers
- Terminals
- Uninterruptible Power Supplies (personal & network)
