

# Zoo to You!

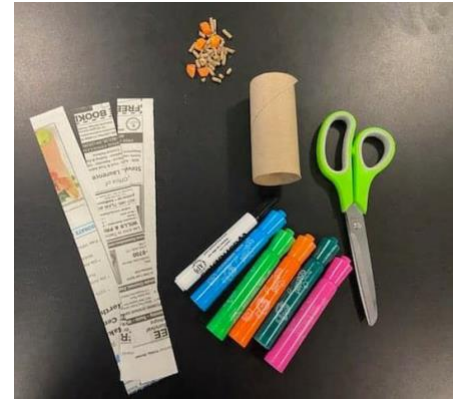

## Wild Crafts from the Central Florida Zoo & Botanical Gardens

---

### Puzzle Feeder

#### Supplies:

- Paper towel or toilet paper roll
- Scissors
- Your pet's favorite food or treats!
- Non-toxic markers
- Paper strips

#### Instructions:

1. Decorate your cardboard roll with any design you would like using non-toxic markers. We used scented markers.
2. Carefully cut slits or holes into the sides of the tube. Also cut two slits on at least one end of the tube.
3. Stuff strips of paper into the holes you cut or into the tube itself.

4. Close one end of the tube by folding down the slits on the end.
5. Add your pet's food or treats. You can close the other end of the tube or leave one side open.

6. Give this enrichment to your pet and enjoy watching them figure out how to find their food!
